

# GoE Energy Conference 2017

*“We LOVE Energy!”*

**November 11-12 2017**  
**The View Hotel, Eastbourne, UK**

You MUST attend the GoE Energy Conference (no matter if you are professional or not) to have newest information about the Energy - the endless resource that you needed for all aspects of your life. GoE Conference - the only place on the World where you will meet science, practice, clarity. ~ *Katerina Kalchenko*

What makes the GoE Energy Conference a must-go, is you get to meet new people and hear new ideas. Reading the same books, doing the same things, associating with the same people, learning from the same person/people can get 'stale', so this is a great opportunity to hear about new books, do something new/different, meet new people and find a new trainer/mentor so you keep growing! ~ *Jorge Vence*

I LOVE to meet old friends and new, discover new things in great workshops, have great experiences personally, to get inspired by what Energists are doing around the world, and hang out with the best people ... I LOVE the GoE Energy Conference! Last year one of my favourite moments was actually the Poetry Workshop I taught. It was a small group but what we produced from one soul to the other, had everyone moved to tears of love and joy. Truly magical moment. And then getting to hug all the folks you love and admire and respect over the years who show up... is pretty awesome! ~ *Sandra Hillawi*

At the GoE Energy Conference you can consolidate the feeling that we really are a community of energists. You meet the people whose posts you like and whose articles you've enjoyed. We are not 'lone rangers', we are a collective working to raise the flow of energy and the more we have, the more we have to give! Come to the conference and get 'charged up!' ~ *Wendy Birse*

We live in an ever increasing "virtual world" and it is simply so wonderful, refreshing, inspiring, to interact with real living people who smile and make you tingle inside, it's something we crave and need - and we're all ENERGISTS together, which makes the GoE Energy Conference extra, extra special! Make amazing memories in the real world, that's my plan. x ~ *Silvia Hartmann*

Last year was my first GoE Energy Conference and I'm excited to be going again this year! The conference was a wonderful way for me to connect to my tribe in person. I really enjoyed spending time with Energists from all over the world. We speak the same language. There were so many special moments for me it is hard to choose just one. Sharing stories and energy experiences was fun and inspiring. Even though we mainly make virtual connections, being in each other's presence; experiencing our energy, being a part of amazing energy bubbles was sweet and exhilarating. If you love energy give yourself this amazing gift and attend the GoE Conference this year! I look forward to seeing you there. =) ~ *Maria LiPuma*

## **The Energy of Attraction**

*with Alex Kent*

This is a talk on the energy interplay between couples in this most primal and intimate of dances. Seduction is a game for two, yet the journey between first contact and sex is often not the well-lubricated interaction both players would wish it to be.

For the majority, approach anxiety, self doubt, low confidence, unpracticed social skills and negative thoughts are the reason why finding love is often referred to as "getting lucky".

Yet, as energists, we have unique tools for helping people succeed all the way from thinking about meeting someone, to the first "Hello", to the bedroom and beyond. These approaches are the antithesis to online dating, Dutch courage, staying up late, low confidence and feeling unlucky in love.

This presentation is a must for professional energy coaches seeking to help their clients awaken and heighten their first circuitry, as well as anyone interested in gaining those benefits for themselves. You'll discover new ideas for gaining inner confidence and learn breakthrough approaches on meeting, attracting and enchanting whomever takes your fancy.

*~ Alex Kent is the CEO of The Guild of Energists and is responsible the day-to-day operations and software development for our websites. He joined The GoE in 2002 and has been an integral part of our success these past two decades.*

## **The Naked Soul Experience**

*with Sandra Hillawi*

Many of us cringe in fear of the idea of complete openness and expression from the soul, to share who we really are. Yet if we have the courage, this energy of vulnerability and honesty from deep within us has the power to touch and move another person deeply.

We long for soul connection.

*~ Sandra Hillawi is a international GoE Trainer and has been working as a practitioner since 2000, giving over 100 EFT and EMO Energy In Motion trainings around the world since 2002. Sandra also runs evolution, inspiration groups and detox retreats and is the author of the*

## Conference Host Town - Eastbourne

Eastbourne is a beautiful seaside town on the southern coast of the UK and is situated approximately 17 miles East of Brighton and 65 miles south of London.

Within walking distance of the venue is the South-Downs National Park and also Beachy Head which is the highest chalk sea cliff in Great Britain and a designated area of outstanding natural beauty. This sheltered position contributes to Eastbourne's title of sunniest place in Great Britain – perfect for the GoE's annual energy gathering.

Also within a few hundred yards of The View Hotel is Eastbourne's famous pier and town centre, with its wide selection of restaurants, bars, cafés and shops.

Eastbourne was relatively slow to transform itself into a seaside resort. When King George III sent his children to Sea Houses in 1780, it was still just a busy fishing village. It's thanks to the arrival of the railway in 1849 that Eastbourne owes much of its popularity.

Today, Eastbourne remains a traditional holiday town. In more recent times, it has also diversified to become a busy conference and business town, including hosting large events including the Aegon International tennis tournament and Airbourne, the world's biggest free seafront air show.
